

Nitmiluk Tours Tourist Boat Transfer Northern Territory

GGC Cranes, Rigging and Scaffolding were engaged by Nitmiluk Tours to transfer five tourist barges from the first pool upstream over the barrages through the Nitmiluk Gorge in the Northern Territory.

ABOUT THE CAMPAIGN

GGC Cranes, Rigging and Scaffolding winched five barges upstream using two capstans and along winches. We utilised the strength of Dyneema rope and various slings.

The design team thought outside the box and delivered substantial savings for the client based on know-how.

The team delivered the project ahead of schedule.
